

Jack R. East, Fellow, IEEE

Research Scientist

Department of Electrical Engineering and Computer Science

UNIVERSITY OF MICHIGAN

Role in the Center: Co-Investigator**Areas of Research:** Microwave, Millimeter-wave and VHS device modeling, Fabrication and evaluation.

1301 Beal Avenue

Ann Arbor, MI, 48109-2122

Phone: (734) 763-0212

Fax: (734) 763-9324

E-mail: jeast@umich.edu

A. PROFESSIONAL PREPARATION

University of Michigan

Electrical Engineering, B.S., 1969

University of Michigan

Electrical Engineering, M.S., 1970

University of Michigan

Electrical Engineering, Ph.D., 1986

B. APPOINTMENTS

Research Scientist, EECS Department, University of Michigan

1993-present

Associate Research Scientist, EECS Department, University of Michigan

1982-1993

Assistant Research Scientist, EECS Department, University of Michigan

1979-1982

C. SYNERGISTIC ACTIVITIES

Dr. East has 30 years of experience working on numerical simulation of RF semiconductor devices, device fabrication and RF measurement and characterization at microwave, millimeter wave and THz frequencies. Over this period he has been the co-chairman for 18 Ph.D. students. He has published 5 book chapters and more than 70 papers in refereed journals on device physics, numerical analysis of semiconductor structures, RF characterization and communications. He is an external reviewer for IEEE Transactions on Microwave Theory and Techniques, IEEE Transactions on Electron Devices, IEEE Microwave and Guided Wave Letters and Solid State Electronics and is a member of the technical program committee for the International Symposium on Space Terahertz Technology.

His research interests include: fabrication, design and analysis of microwave solid-state devices and circuits; modeling of transport and interfaces in semiconductors; microwave and millimeter-wave measurements; design and fabrication of terahertz structures; numerical modeling; and analysis and optimization of digital communications systems.
